Glenbard North plans themed activities for Hispanic Awareness Month

Glenbard North High School is celebrating Hispanic Awareness Month with a variety of activities.

Hispanic students are providing brief announcements that highlight interesting cultural information. Announcements will be read in Spanish and English.

Hispanic civic and business leaders will be featured guest speakers. This valuable interaction between community leaders and students is an example of Glenbard District 87's efforts to strengthen community partnerships.

Music representing different styles and countries is being played during passing periods through Friday, Oct. 5.

Students may test their knowledge of famous people, geography, food, and culture in a trivia contest. Prizes will be awarded.

Display cases throughout the school feature Hispanic authors, Hispanic artifacts and other cultural items.
