## **Glenbard outlines superintendent, principal search timeline**

The Glenbard Township High School District 87 Board of Education is moving ahead with an aggressive search for a new superintendent and Glenbard North High School principal. On Aug. 8, James Warren, a partner with The Bickert Group, presented the board with a search timeline.

Warren said his firm would like to present the board with a slate of superintendent candidates by mid-November and have those candidates interview with the board later that month. His timeline indicates having a superintendent named in December.

On Sept. 8 and 9 the search firm will conduct an audit in the district to gather input needed to develop a leadership needs profile. Two public sessions will be held at 7 p.m. Sept. 8, one at Glenbard North High School, 990 N. Kuhn Road in Carol Stream, and the other at Glenbard South High School, 23W200 Butterfield Road in Glen Ellyn. The search firm will seek input from students, parents, faculty members, classified staff members, administrative staff members and the business community.

The Sept. 8 session at Glenbard North also will incorporate the public's input related to the principal search.

The superintendent and Glenbard North principal searches will be conducted simultaneously. When a superintendent is chosen, The Bickert Group will turn information about principal candidates over to the new superintendent for his/her decision.
