## **Glenbard invites public to serve on Facility Plan Review panel**

Community members with engineering skills, professional construction know-how and/or building trade experience are invited to share their expertise and shape the future of Glenbard Township High School District 87.

Glenbard is looking for six community members with expertise in facilities development to serve on a new Facility Plan Review Committee.

In 2002, District 87 architects developed a facility plan that provided a comprehensive list of needed building repairs and improvements. This fall, the district updated the plan with the assistance of Legat Architects, Amsco Engineering and school district administrators.

Those who will serve as resident advisers on this new review committee will further refine the plan, prioritize the needs and develop a funding plan. Committee members will have meaningful input into their investment in their school facilities.

Committee applications are available by contacting Gary Frisch, assistant superintendent of finance, at (630) 469-9100 Ext. 5125.

Completed applications are due Tuesday, Jan. 31.

It is anticipated the new committee will meet from 6:30 to 8 p.m. the first and third Monday of each month until the end of the school year.

The final plan will be presented to the Board of Education Facilities/Finance Committee.
