Glenbard East to host students from Spain

Glenbard East High School will welcome 16 students from Malaga, Spain on Thursday, Sept. 8, as part of a valuable cultural exchange.

Foreign language department chairman Linnette Dorman is coordinating the students' visit with Share America International Exchange, a not-for-profit educational organization.

This visit will expand upon the valuable lessons Glenbard East students gain in their foreign language class. Interacting with students from Spain will help Glenbard East students gain a deeper knowledge of another culture. At the same time, host families share the American way of life with the visiting students.

Glenbard East students who are taking Spanish and their families are hosting the 16 teens from Spain, who will visit Glenbard East and the Chicago area through Thursday, Sept. 29.

A second group from the same area will visit Libertyville, attending three high schools there. On most Mondays, Wednesdays, and Fridays the students will attend classes at Glenbard East. On Tuesday and Thursdays the Spanish students will go on excursions with the group from Libertyville.

Glenbard East's Spanish Club and Latinos Unidos Club are planning after-school activities for the visiting students.
