

Finding a Network Vision Provider

Finding a network vision provider is easy. You can find a network vision provider today by using the Provider Search on our website — www.deltadentalil.com/deltavision.

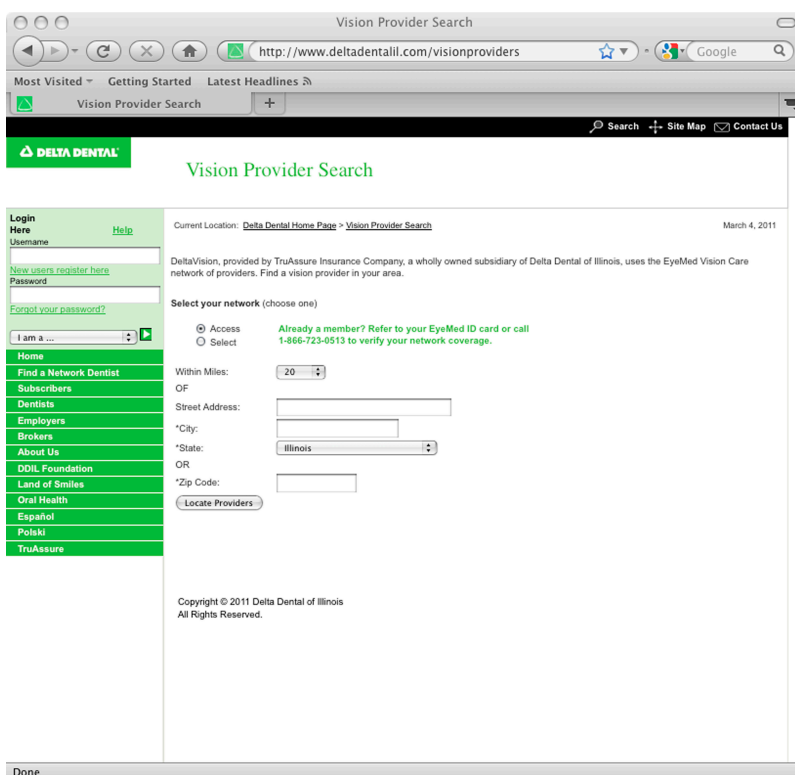

You must select the network — Access or Select — your benefit plan utilizes because providers may not participate in both networks.

Please refer to your enrollment materials to determine which network applies to your vision care plan.

1. **Go to www.deltadentalil.com/deltavision.** Select Find a Network Vision Provider.
2. **Network Selection.** Select the network your benefit plan utilizes — Access or Select.
3. **Your Location.** Enter your work or home address, city and state, or ZIP code to locate the most convenient provider for you.

Your search will list all vision providers included in the network and the area you specify. You can map vision provider locations and create a list of selected providers, which can be printed and/or saved as a PDF file.

The screenshot shows the 'Vision Provider Search' page. The left sidebar contains a navigation menu with links: Home, Find a Network Dentist, Subscribers, Dentists, Employers, Brokers, About Us, DDIL Foundation, Land of Smiles, Oral Health, Español, Polski, and TruAssure. The main content area has a login section, a description of DeltaVision, and a 'Select your network' section with radio buttons for 'Access' and 'Select'. Below this is a search form with fields for 'Within Miles' (set to 20), 'Street Address', 'City', 'State' (set to Illinois), and 'Zip Code'. A 'Locate Providers' button is at the bottom of the form. The footer includes copyright information for 2011 Delta Dental of Illinois.
