## **Independent Auditors' Report**

To the Board of Education of Glenbard Township High School District No. 87

#### **Report on the Financial Statements**

We have audited the accompanying modified cash basis financial statements of the governmental activities and each major fund of Glenbard Township High School District No. 87, Illinois, as of and for the year ended June 30, 2021, and the related notes to the financial statements, which collectively comprise Glenbard Township High School District No. 87's basic financial statements as listed in the table of contents.

#### Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with the modified cash basis of accounting described in Note 1; this includes determining that the modified cash basis of accounting is an acceptable basis for the preparation of the financial statements in the circumstances. Management is also responsible for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

### Auditors' Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditors' judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control over financial reporting relevant to Glenbard Township High School District No. 87's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances but not for the purpose of expressing an opinion on the effectiveness of Glenbard Township High School District No. 87's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

#### **Opinions**

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective modified cash basis financial position of the governmental activities and each major fund of Glenbard Township High School District No. 87, Illinois, as of June 30, 2021 and the respective changes in the modified cash basis financial position thereof for the year then ended in accordance with the modified cash basis of accounting described in Note 1.

Baker Tilly US, LLP, trading as Baker Tilly, is a member of the global network of Baker Tilly International Ltd., the members of which are separate and independent legal entities.

#### Emphasis of Matter

As discussed in Note 2, Glenbard Township High School District No. 87 adopted the provisions of GASB Statement No. 84, *Fiduciary Activities*, effective July 1, 2020. Our opinions are not modified with respect to this matter.

#### Basis of Accounting

We draw attention to Note 1 to the financial statements, which describes the basis of accounting. The financial statements are prepared on the the modified cash basis of accounting, which is a basis of accounting other than accounting principles generally accepted in the United States of America. Our opinions are not modified with respect to this matter.

#### Other Matters

#### Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise Glenbard Township High School District No. 87's basic financial statements. The other information as described in the table of contents is presented for purposes of additional analysis and is not a required part of the basic financial statements. Such information has not been subjected to the auditing procedures applied in the audit of the basic financial statements, and accordingly, we do not express an opinion or provide any assurance on it.

#### Prior-Year Comparative Information

We have previously audited Glenbard Township High School District No. 87's 2020 financial statements, and we expressed unmodified audit opinions on the respectivemodified cash basis financial statements of the governmental activities, each major fund, and the aggregate remaining fund information in our report dated September 22, 2020. In our opinion, the summarized comparative information presented herein as of and for the year ended June 30, 2020, is consistent, in all material respects, with the audited financial statements from which it has been derived.

## Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated September 22, 2021 on our consideration of Glenbard Township High School District No. 87's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is soley to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of Glenbard Township High School District No. 87's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering Glenbard Township High School District No. 87's internal control over financial reporting and compliance.

Oak Brook, Illinois September 22, 2021

The discussion and analysis of Glenbard Township High School District No. 87's (the "District") financial performance provides an overall review of the District's financial activities as of and for the year ended June 30, 2021. The management of the District encourages readers to consider the information presented herein in conjunction with the basic financial statements to enhance their understanding of the District's financial performance. All amounts, unless otherwise indicated, are expressed in millions of dollars. Certain comparative information between the current year and the prior is presented in the Management's Discussion and Analysis (the "MD&A").

## **Financial Highlights**

- > In total, net position increased by \$12.9. This represents a 7% increase from 2020.
- > General revenues accounted for \$146.5 in revenue or 64% of all revenues. Program specific revenues in the form of charges for services and fees and grants accounted for \$83.1 or 36% of total revenues of \$229.6.
- > The District had \$216.7 in expenses related to government activities. However, only \$83.1 of these expenses were offset by program specific charges and grants.
- > The District achieved all 3 of its key financial objectives this year: 1) Balanced budget in its operating funds; 2) No short term borrowing was required to meet cash flow obligations; 3) Solvency position was achieved. The District had 196 days cash on hand at the end of fiscal year 2021, exceeding the 180 days cash on hand target established by the Illinois State Board of Education (ISBE).
- > The District achieved Financial Recognition status for the 15th year in a row. Financial recognition status is the highest financial performance rating level awarded by ISBE.
- > The District has maintained its strong credit ratings, Standard & Poors rating of AA+ is one level below their top rating of AAA. Moody's rates District 87 at Aa1, again one level below its highest rating level.

## **Overview of the Financial Statements**

This discussion and analysis is intended to serve as an introduction to the District's basic financial statements. The basic financial statements are comprised of three components:

- > Government-wide financial statements,
- > Fund financial statements, and
- > Notes to basic financial statements.

This report also contains other supplementary information in addition to the basic financial statements.

### Government-wide financial statements

The government-wide financial statements are designed to provide readers with a broad overview of the District's finances, in a manner similar to a private-sector business.

The statement of net position - modified cash basis presents information on all District assets/deferred outflows of resources and liabilities/deferred inflows of resources arising from cash transactions, with the difference between them reported as net position. Over time, increases and decreases in net position may serve as a useful indicator of whether the financial position of the District is improving or deteriorating.

The statements of activities - modified cash basis presents information showing how the government's net position changed during the fiscal year being reported. All changes in net position are reported with cash is received and disbursed. Additionally, activity related to acquisition, depreciation and year end balances of capital assets, as well as year end balances and related changes in long-term debt in its government-wide financial statements are reported.

The government-wide financial statements present the functions of the District that are principally supported by taxes and intergovernmental revenues (governmental activities). The District has no business-type activities; that is, functions that are intended to recover all or a significant portion of their costs through user fees and charges. The District's governmental activities include instructional services (regular education, special education and other), supporting services, operation and maintenance of facilities and transportation services.

## Fund financial statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The District uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the District can be divided into two categories: governmental funds (the District maintains no proprietary funds).

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on near-term inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a school district's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The District maintains six individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures and changes in fund balances for the General Fund, Operations and Maintenance Fund, Transportation Fund, IMRF/Social Security Fund, Debt Service Fund, and Capital Projects Fund, all of which are considered to be major funds.

The District adopts an annual budget for each of the funds listed above. A budgetary comparison schedule has been provided for each fund to demonstrate compliance with this budget.

## Notes to basic financial statements

The notes to the financial statements provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

## Other information

In addition to the basic financial statements and accompanying notes, this report also presents certain information concerning the District's progress in funding its obligation to provide pension and postemployment benefits to its employees.

## **Government-Wide Financial Analysis**

The District's combined net position was higher on June 30, 2021, than it was the year before, increasing 7% to \$210.4.

## **District-Wide Expenses by Function**

## Financial Analysis of the District's Funds

The District's Governmental Funds balance increased from \$87.9 to \$91.5.

## **General Fund Budgetary Highlights**

The District achieved a favorable net surplus in its operating funds primarily due to favorable performance in salaries, benefits, transportation expenditures, and other purchase services.

## **Capital Assets and Debt Administration**

#### Capital assets

By the end of 2021, the District had compiled a total investment of \$340.4 (\$174.3 net of accumulated depreciation) in a broad range of capital assets including buildings, land and equipment. Total depreciation expense for the year was \$9.9. More detailed information about capital assets can be found in Note 6 of the basic financial statements.

## **Factors Bearing on the District's Future**

At the time these financial statements were prepared and audited, the District was aware of the following circumstances that will significantly affect financial operations in the future:

Political and legislative impacts could have the most significant impact on the District's ability to fund staffing and programs in the future.

- The State of Illinois financial strength and ability to fund their portion of educational expenses is an ongoing area of concern.
- There have been discussions regarding a property tax freeze. If the State were to enact a freeze it could have a material impact on District revenues; we have modeled this impact. A 2-year property tax freeze would decrease our annual revenue by more than \$4.0M per year, on a run-rate basis into the future. (Decrease calculated based on what we would have expected in future revenues assume 2% CPI).

## **Requests for Information**

This financial report is designed to provide the District's citizens, taxpayers, and creditors with a general overview of the District's finances and to demonstrate the District's accountability for the money it receives. ### NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Glenbard Township High School District No. 87 (the "District") operates as a public school system governed by a seven-member board. The District is organized under the School Code of the State of Illinois, as amended. The accounting policies of the District conform to the modified cash basis of accounting as applicable to the local governmental units of this type. This modified basis of accounting differs from accounting principles generally accepted in the United States of America (GAAP). Generally accepted accounting principles include all relevant Governmental Accounting Standards Board (GASB) pronouncements. The following is a summary of the more significant accounting policies of the District:

## **Reporting Entity**

This report includes all of the funds of the District. The reporting entity for the District consists of the primary government and its component units. Component units are legally separate organizations for which the primary government is financially accountable or other organizations for which the nature and significance of their relationship with the primary government are such that their exclusion would cause the reporting entity's financial statements to be misleading. The District has not identified any organizations that meet this criteria.

#### **Basis of Presentation**

#### Government-wide Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the nonfiduciary activities of the District. The effect of interfund activity has been removed from these statements. The District's operating activities are all considered "governmental activities", that is, activities normally supported by taxes and intergovernmental revenues. The District has no operating activities that would be considered "business activities".

The statement of activities demonstrates the degree to which the direct cash disbursements of a given function are offset by program receipts. Direct cash disbursement are those that are clearly identifiable with a specific function. Program receipts include (1) amounts paid by the recipient of goods or services offered by the program and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Taxes and other items not properly included among program receipts are reported instead as general receipts.

#### Governmental Funds Financial Statements

Governmental funds financial statements are organized and operated on the basis of funds and are used to account for the District's general governmental activities. Fund accounting segregates funds according to their intended purpose, and is used to aid management in demonstrating compliance with finance-related legal and contractual provisions. A fund is an independent fiscal and accounting entity with a self-balancing set of accounts that comprise its assets, deferred outflows of resources, liabilities, deferred inflows of resources, reserves, fund balance, revenues and expenditures. The minimum number of funds is maintained consistent with legal and managerial requirements.

Separate financial statements are provided for all governmental funds.

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

## **Measurement Focus and Basis of Accounting**

The government-wide financial statements and the fund financial statements are reported using the modified cash basis of accounting. Assets, deferred outflows of resources, liabilities, deferred inflows of resources, net position, revenues, and expenditures are recognized when they result from cash transactions with a provision for depreciation in the government-wide statements. This basis is a comprehensive basis of accounting other than accounting principles generally accepted in the United States of America.

In the government-wide financial statements, governmental activities are presented using the economic resources measurement focus, within the limitations of the modified cash basis of accounting, as described above. In the governmental fund financial statements, the current financial resources measurement focus is used. Only current financial assets, deferred outflows of resources, liabilities, and deferred inflows of resources are generally included on their balance sheets. Their operating statements present sources and uses of available spendable financial resources during a given period.

As a result of the use of the modified cash basis of accounting, certain assets and deferred inflows of resources and their related revenues, (such as accounts receivable and revenue for billed or provided services not yet collected) and certain liabilities and deferred inflows of resources and their related expenses (such as accounts payable and expenses for goods or services received but not yet paid, and accrued expenses and liabilities) are not recorded in these financial statements.

If the District utilized the basis of accounting recognized as generally accepted, the fund financial statements for governmental funds would use the modified accrual basis of accounting. All government-wide financials would be presented on the accrual basis of accounting.

### Major Governmental Funds

<u>General Fund</u> - the general operating fund of the District. It accounts for all financial resources except those required to be accounted for in another fund. This fund is primarily used for most of the instructional and administrative aspects of the District's operations. Revenues consist largely of local property taxes and state government aid.

This fund also includes student activity funds held and controlled by the District, under the direction of district personnel, and administrative involvement of the board of education.

<u>Special Revenue Funds</u> - account for the proceeds of specific revenue sources that are legally restricted or committed to expenditures for specified purposes, other than those accounted for in the Debt Service Fund or Capital Projects Funds.

*Operations and Maintenance Fund* - accounts for expenditures made for repair and maintenance of the District's buildings and land. Revenue consists primarily of local property taxes.

*Transportation Fund* - accounts for all revenue and expenditures made for student transportation. Revenue is derived primarily from local property taxes and state reimbursement grants.

Municipal Retirement/Social Security Fund - accounts for the District's portion of pension contributions to the Illinois Municipal Retirement Fund, payments to Medicare, and payments to the Social Security System for non-certified employees. Revenue to finance the contributions is derived primarily from local property taxes and personal property replacement taxes.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

<u>Debt Service Fund</u> - accounts for the accumulation of resources that are restricted, committed, or assigned for, and the payment of, long-term debt principal, interest and related costs. The primary revenue source is local property taxes levied specifically for debt service and transfers from other funds to pay long-term financing arrangements.

<u>Capital Project Fund</u> - accounts for the financial resources that are restricted, committed, or assigned to be used for the acquisition or construction of, and/or additions to, major capital facilities.

## Deposits and Investments

State statutes authorize the District to invest in obligations of the U.S. Treasury, certain highly-rated commercial paper, corporate bonds, repurchase agreements, and the State Treasurer's Investment Pool. Investments are stated at cost.

## Receivables and Payables

Transactions between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as "due to/from other funds". These amounts are eliminated in the governmental activities column in the statement of net position. Receivables are expected to be collected within one year.

### Property Tax Revenues

The District must file its tax levy resolution by the last Tuesday in December of each year. The District's 2020 levy resolution was approved during the November 30, 2020 board meeting. The District's property tax is levied each year on all taxable real property located in the District and it becomes a lien on the property on January 1 of that year. The owner of real property on January 1 in any year is liable for taxes of that year.

The tax rate ceilings are applied at the fund level. These ceilings are established by state law subject to change only by the approval of the voters of the District.

The PTELA limitation is applied in the aggregate to the total levy (excluding certain levies for the repayment of debt). PTELA limits the increase in total taxes billed to the lessor of 5% or the percentage increase in the Consumer Price Index (CPI) for the preceding year. The amount can be exceeded to the extent there is "new growth" in the District's tax base. The new growth consists of new construction, annexations and tax increment finance district property becoming eligible for taxation. The CPI rates applicable to the 2020 and 2019 tax levies were 1.4% and 2.3%, respectively.

Property taxes are collected by the County Collector/Treasurer, who remits to the District its share of collections. Taxes levied in one year become due and payable in two equal installments: the first due on June 1 and the second due on September 1. Property taxes are normally collected by the District within 60 days of the respective installment dates.

### Personal Property Replacement Taxes

Personal property replacement taxes are first allocated to the Municipal Retirement / Social Security Fund, and the balance is allocated to the remaining funds at the discretion of the District.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

## NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

### Capital Assets

Capital assets, which include land, buildings, land improvements, and equipment, are reported in the government-wide financial statements. Capital assets are defined by the District as assets with an initial individual cost of more than \$5,000 and an estimated useful life of more than 1 year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair value at the date of donation.

Depreciation of capital assets is provided using the straight-line method over the following estimated useful lives:

Assets	Years
Buildings	40
Land improvements	20
Equipment	5-10

In the fund financial statements, capital assets used in governmental fund operations are accounted for as capital outlay expenditures of the governmental fund upon acquisition.

## Long-Term Obligations

In the government-wide financial statements, long-term debt and other long-term obligations are reported as liabilities in the statement of net position. Bond premiums and discounts are deferred and amortized over the life of the applicable bonds using the effective interest method. The balance at year end for premiums/discounts is shown as an increase or decrease in the liability section of the statement of net position.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the period incurred. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuances are reported as other financing sources while discounts on debt issuances are reported as other financing uses.

## **Equity Classifications**

Equity is classified as net position in the government-wide financial statements and displayed in three components:

Net investment in capital assets - Consists of capital assets including restricted capital assets, net of accumulated depreciation and reduced by the outstanding balances of any bonds, mortgages, notes, or other borrowings that are attributable to the acquisition, construction, or improvement of those assets less than any unspent debt proceeds.

Restricted net position - Consists of net position with constraints placed on its use either by 1) external groups such as creditors, grantors, contributors, or laws or regulations of other governments or, 2) law through constitutional provisions or enabling legislation.

*Unrestricted net position* - All other net position that does not meet the definition of "restricted" or "net investment in capital assets."

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

# NOTE 1 - SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES - (CONTINUED)

When both restricted and unrestricted resources are available for use, it is the District's policy to use restricted resources first and then unrestricted resources.

Equity is classified as fund balance in the fund financial statements and displayed in five components:

*Nonspendable* - includes amounts not in spendable form, such as inventory, or amounts required to be maintained intact legally or contractually (principal endowment) (e.g. inventory, pre-paid items, permanent scholarships).

*Restricted* - includes amounts constrained for a specific purpose by external parties (e.g. Debt Service, Capital Projects, State and Federal Grant Funds).

Committed - includes amounts constrained for a specific purpose by a government using its highest level of decision making authority, the Board of Education. This formal action (a resolution) must occur prior to the end of the reporting period, but the amount of the commitment, which will be subject to the constraints, may be determined in the subsequent period. Any changes to the constraints imposed require the same formal action of the Board of Education board that originally created the commitment.

Assigned - includes general fund amounts constrained for a specific purpose by the Board of Education or by an official that has been delegated authority to assign amounts. The Board of Education has declared that the Superintendent or his designee may assign amounts for a specific purpose. The Board of Education may also take official action to assign amounts. Additionally, all remaining positive spendable amounts in governmental funds, other than the General Fund, that are neither restricted nor committed are considered assigned. Assignments may take place after the end of the reporting period.

*Unassigned* - includes residual positive fund balance within the General Fund which has not been classified within the other above mentioned categories. Unassigned fund balance may also include negative balances for any governmental fund if expenditures exceed amounts restricted, committed or assigned for those specific purposes.

In circumstances where an expenditure is to be made for a purpose for which amounts are available in multiple fund balance classifications, the order in which resources will be expended in the General Fund is as follows: restricted fund balance, followed by committed fund balance, assigned fund balance, and lastly, unassigned fund balance. In all other funds (Special Revenue, Debt Service, Capital Projects), assigned fund balance will be spent first, followed by committed fund balance, and then restricted fund balance.

Governmental fund balances reported on the fund financial statements at June 30, 2021 are as follows:

The assigned fund balance in the General Fund of \$1,259,505 is for student activity programs. The assigned fund balance in the Capital Projects Fund is to be used for future capital projects of the District. The remaining restricted fund balances are for the purpose of the respective funds as described above in the Major Governmental Funds section.

### Comparative Data

The financial statements include summarized prior-year comparative information. Such information does not include sufficient detail to constitute a presentation in conformity with accounting principles generally accepted in the United States of America. Accordingly, such information should be read in conjunction with the District's financial statements for the year ended June 30, 2020, from which such summarized information was derived.

#### Eliminations and Reclassifications

In the process of aggregating data for the government-wide financial statements, some amounts reported as interfund activity and balances were eliminated or reclassified.

#### NOTE 2 - CHANGES IN ACCOUNTING PRINCIPLES

In January 2017, the Governmental Accounting Standards Board issued statement No. 84 - *Fiduciary Activities*. This Statement improves guidance regarding the identification of fiduciary activities for accounting and financial reporting purposes. This standard was implemented July 1, 2020.

## NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY

## **Budgetary Data**

Except for the exclusion of on-behalf payments from other governments, discussed below, the budgeted amounts for the Governmental Funds are adopted on the cash basis, which is consistent with cash basis of accounting prescribed by the program accounting manual for Illinois school districts.

The Board of Education follows these procedures in establishing the budgetary data reflected in the general purpose financial statements:

- 1. The Administration submits to the Board of Education a proposed operating budget for the fiscal year commencing July 1. The operating budget includes proposed expenditures and the means of financing them.
- 2. Public hearings are conducted and the proposed budget is available for inspection to obtain taxpayer comments.
- 3. Prior to September 30, the budget is legally adopted through passage of a resolution. By the last Tuesday in December, a tax levy resolution is filed with the county clerk to obtain tax revenues.
- 4. Management is authorized to transfer budget amounts, provided funds are transferred between the same function and object codes. The Board of Education is authorized to transfer up to a legal level of 10% of the total budget between functions within any fund; however, any revisions that alter the total expenditures of any fund must be approved by the Board of Education, after following the public hearing process mandated by law.
- 5. Formal budgetary integration is employed as a management control device during the year for all governmental funds.
- 6. All budget appropriations lapse at the end of the fiscal year.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

## NOTE 3 - STEWARDSHIP, COMPLIANCE AND ACCOUNTABILITY - (CONTINUED)

The budget amounts shown in the financial statements are as originally adopted because there were no amendments during the past fiscal year.

## **Budget Reconciliations**

The Statement of Revenues, Expenditures and Changes in Fund Balance - Governmental Funds (modified cash basis) includes "on-behalf" payments received and made for the amounts contributed by the State of Illinois for the employer's share of the Teachers Retirement System pension. The District does not budget for these amounts. The differences between the budget and reporting basis are as follows:

	Revenues		Expenditures	
General Fund Budgetary Basis To adjust for on-behalf payments received To adjust for on-behalf payments made	\$	127,118,957 - 36,184,097	\$	125,128,117 36,184,097 -
General Fund Reporting Basis	\$	163,303,054	\$	161,312,214

## **Excess of Expenditures over Budget**

For the year ended June 30, 2021, expenditures exceeded budget in the Operations and Maintenance Fund, Municipal Retirement/Social Security Fund and Debt Service Fund by \$695,411, \$130,536, and \$43,402, respectively. These excesses were funded by available financial resources.

### **NOTE 4 - DEPOSITS AND INVESTMENTS**

*Interest Rate Risk.* Interest rate risk is the risk that changes in interest rates will adversely affect the value of an investment. The District does not have a formal investment policy that limits investment maturities as a means of managing its exposure to fair value losses from increasing interest rates.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

## NOTE 4 - DEPOSITS AND INVESTMENTS - (CONTINUED)

At year end, the District had the following investments that were subject to interest rate risk:

		Investment Maturity (In Years)								
	Fa	air Value	Les	s than one		1-5		5-10	Mor	e than 10
Negotiable Certificates

Total	\$	1,486,430	\$	1,486,430	\$	-	\$	-	\$	-

*Credit Risk.* Credit risk is the risk that an issuer or other counterparty to an investment will not fulfill its obligations. State Statutes limit the investments in commercial paper and corporate bonds to the top three ratings of two nationally recognized statistical rating organizations (NRSRO's). Under Illinois law, the District is restricted to investing funds in specific types of investment instruments. The following generally represents the types of instruments allowable by State laws:

- > Securities issued or guaranteed by the United States
- > Deposit accounts of banks and Savings and Loan Associations insured up to \$250,000 by the Federal Deposit Insurance Corporation
- > Short-term obligations (less than 180 days) of U.S. corporations with assets over \$500,000,000 rated in the three highest classifications by at least two rating agencies. Insured accounts of an Illinois credit union chartered under United States or Illinois law.
- > Money market mutual funds with portfolios of securities issued or guaranteed by the United States or agreements to repurchase these same types of obligations.
- > The Illinois Funds or Illinois School District Liquid Asset Fund Plus.
- > Repurchase agreements which meet instrument transaction requirements of Illinois law.

The Illinois School District Liquid Asset Fund Plus (ISDLAF+) is a not-for-profit investment trust formed pursuant to the Illinois Municipal Code and managed by a Board of Trustees elected from participating members. The trust is not registered with the SEC as an investment company. Investments are rated AAAm and are valued at share price, which is the price for which the investment could be sold.

Ratings were not available for the Negotiable Certificates of Deposit.

Concentration of Credit Risk. Concentration of credit risk is the risk of loss attributed to the magnitude of a government's investment in a single issuer. The District places no limit on the amount the District may invest in any one issuer.

Custodial Credit Risk - Deposits. With respect to deposits, custodial credit risk refers to the risk that, in the event of a bank failure, the District's deposits may not be returned to it. The District's investment policy limits the exposure to deposit custodial credit risk by requiring all deposits in excess of FDIC insurable limits to be secured by collateral in the event of default or failure of the financial institution holding the funds. As of June 30, 2021, the bank balance of the District's deposit with financial institutions was fully collateralized.

## NOTE 4 - DEPOSITS AND INVESTMENTS - (CONTINUED)

Custodial Credit Risk - Investments. With respect to investments, custodial credit risk is the risk that, in the even of the failure of the counterparty, the government will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The District's investment policy limits the exposure to investment custodial credit risk by requiring all investments be secured by private insurance or collateral.

Separate cash and investment accounts are not maintained for all District funds; instead, the individual funds maintain their invested and uninvested balances in the common checking and investment accounts, with accounting records being maintained to show the portion of the common account balance attributable to each participating fund.

#### NOTE 5 - INTERFUND TRANSFERS

During the year, the Board transferred \$2,409,439 in fund balance to the Debt Service Fund from the Operations and Maintenance Fund. This transfer was required to fund debt service principal and interest payments on the District's outstanding debt certificates and alternate revenue bonds. The amounts are paid from the Debt Service Fund as required per the Illinois Program Accounting Manual.

The Board also transferred \$3,000,000 in fund balance to the Capital Projects Fund from the General Fund (Educational Accounts) for future capital projects.

## NOTE 7 - LONG TERM LIABILITIES - (CONTINUED)

The District is subject to the Illinois School Code, which limits the amount of certain indebtedness to 6.9% of the most recent available equalized assessed valuation of the District. As of June 30, 2021, the statutory debt limit for the District was \$425,322,633, providing a debt margin of \$371,897,633. There are numerous covenants with which the District must comply in regards to these bond issues. As of June 30, 2021, the District was in compliance with all significant bond covenants, including federal arbitrage regulations.

In prior years, the District defeased certain general obligation and other bonds by placing the proceeds of new bonds in an irrevocable trust to provide for all future debt service payments on the old bonds. Accordingly, the trust assets and the liability for the defeased bonds are not included in the District's financial statements. At June 30, 2021, \$22,520,000 of bonds outstanding are considered defeased.

Alternate Revenue Bonds. The obligations for the alternative revenue bonds will be repaid through annual transfers from the Operations and Maintenance Fund to the Debt Service Fund. The District has pledged future property tax revenues, net of specific operating expenses, to repay \$19.56 million in alternate revenue bonds issued in 2013 and 2014. Proceeds from the bonds provided financing for the District's capital improvement program. The bonds are payable solely from District revenues and are payable through 2024. Annual principal and interest payments on the bonds are expected to require approximately \$2.4 million of net revenues. The total principal and interest remaining to be paid on the bonds is \$7,159,453.

Alternate Revenue bonds currently outstanding are as follows:

Purpose	Interest Rates	Original Indebtedness	Carrying Amount
Series 2013 Alternative Revenue Bonds dated September 18, 2013 are due in annual installments through April 1, 2024	2.85%	\$ 9,560,000 <u>\$</u>	6,770,000

Direct Placement Debt Certificates. During the year, the District issued \$2,280,000 in General Obligation Debt Certificates with an average interest rate of 1.30% to purchase and install solar equipment and pay costs associated with the issuance of the Certificates. The obligations for the Debt Certificates will be repaid from the Debt Service Fund via annual transfers from the Operations and Maintenance Fund.

## NOTE 8 - RISK MANAGEMENT

The District is exposed to various risks of loss related to theft of, damage to, and destruction of assets and natural disasters. To protect from such risks, the District participates in the Suburban School Cooperative Insurance Pool (SSCIP), which is a public entity risk pool. The District pays annual premiums to the pool for insurance coverage. The arrangement with the pool provides that it will be self-sustaining through member premiums and will reinsure through commercial companies for claims in excess of certain levels established by the pool. There have been no significant reductions in insurance coverage from coverage in any of the past three fiscal years.

The District is self-insured for medical coverage that is provided to District personnel. A third party administrator administers claims for a monthly fee per participant. The District makes periodic payments to an escrow account established by the plan administrator. The administrator pays employee claims from this escrow account and requires the District to cover any deficiencies. The District's liability will not exceed \$150,000 per employee or \$8,284,908, in the aggregate, as provided by stop-loss provisions incorporated in the plan.

The District is a member of the IASB - Endorsed Workers' Compensation Self-insurance Trust (the Trust), which has been formed to reduce local school districts' workers' compensation costs. The day-to-day operations of the Trust are managed through a Board of Trustees, elected by the member districts. Each member district has a financial responsibility for annual membership contributions, which are calculated to provide for administrative expenses, specific and aggregate excess insurance coverage, and the funding of anticipated losses and loss adjustment expenses which will be borne directly by the membership. The losses and loss adjustment expenses to be borne by the membership are those which must be incurred prior to the attachment of excess insurance coverage.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

#### NOTE 9 - JOINT AGREEMENTS

The District is a member of Cooperative Association for Special Education (C.A.S.E), a joint agreement that provides certain special education services to residents of the District and six other districts within the DuPage County. Each member district has a financial responsibility for annual and special assessments as established by the policy board. The District believes that because it does not control the selection of the governing authority, and because of the control over employment of management personnel, operations, scope of public service, and special financing relationships exercised by the joint agreement governing boards, these are not included as component units of the District.

Complete financial statements for C.A.S.E. can be obtained from the Administrative Offices at: 22 West 600 Butterfield, Glen Ellyn, IL 60137.

### **NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS**

## **Teachers' Health Insurance Security**

Plan Description. The District participates in the Teacher Health Insurance Security (THIS) Fund, a cost-sharing, multiple-employer defined benefit post-employment healthcare plan that was established by the Illinois legislature for the benefit of retired Illinois public school teachers employed outside the city of Chicago. The THIS Fund provides medical, prescription, and behavioral health benefits, but it does not provide vision, dental, or life insurance benefits to annuitants of the Teachers' Retirement System (TRS). Annuitants not enrolled in Medicare may participate in the state-administered participating provider option plan or choose from several managed care options. Annuitants who are enrolled in Medicare Parts A and B may be eligible to enroll in a Medicare Advantage plan.

The publicly available financial report of the THIS Fund may be found on the website of the Illinois Auditor General: http://www.auditor.illinois.gov/Audit-Reports/ABC-List.asp. The current reports are listed under "Central Management Services."

Benefits Provided. The State Employees Group Insurance Act of 1971 (5 ILCS 375) outlines the benefit provisions of the THIS Fund and amendments to the plan can be made only by legislative action with the Governor's approval. The plan is administered by the Illinois Department of Central Management Services (CMS) with the cooperation of TRS. Section 6.6 of the State Employees Group Insurance Act of 1971 requires all active contributors to TRS who are not employees of the state to make a contribution to the THIS Fund.

On Behalf Contributions to THIS Fund. The State of Illinois makes employer retiree health insurance contributions on behalf of the District. State contributions are intended to match contributions to THIS Fund from active members which were 1.24% of pay during the year ended June 30, 2021. State of Illinois contributions of \$954,904 were recognized as revenues and expenditures by the District during the year in the General Fund based on the current financial resources measurement basis. On the economic resources measurement basis, the District recognizes revenues and expenses of \$3,374,067 Governmental Activities equal to the proportion of the State of Illinois's OPEB expense associated with the employer.

Contributions. The District also makes contributions to THIS Fund. The District's THIS Fund contribution was 0.92% during the year ended June 30, 2021. The percentage of employer required contributions in the future will not exceed 105% of the percentage of salary actually required to be paid in the previous fiscal year. For the year ended June 30, 2021, the District paid \$708,477 to the THIS Fund, respectively, which was 100 percent of the required contribution for the year.

## NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

THIS Fiduciary Net Position. Detailed information about the THIS Fund's fiduciary net position as of June 30, 2020 is available in the separately issued THIS Annual Financial Report.

*Net OPEB Liability.* At June 30, 2021, the District has a liability for its proportionate share of the net OPEB liability (first amount shown below) that reflected a reduction for the state's retiree insurance support provided to the District. The state's support and total are for disclosure purposes only. The amount recognized by the District as its proportionate share of the net OPEB liability, the related state support, and the total portion of the net OPEB liability that was associated with the District were as follows:

District's proportionate share of the collection net OPEB liability \$ 77,976,660

State's proportionate share of the collective net OPEB liability associated with the District \$ 105,637,139

Total \$ 183,613,799

The net OPEB liability was measured as of June 30, 2020, and the total OPEB liability was determined by an actuarial valuation as of June 30, 2019 rolled forward to June 30, 2020. The District's proportion of the net OPEB liability was based on the District's share of contributions to THIS for the measurement year ended June 30, 2020, relative to the projected contributions of all participating THIS employers and the state during that period. At June 30, 2020 and 2019, the District's proportion was 0.291655% and 0.293361%, respectively.

Actuarial Assumptions. The net OPEB liability in the June 30, 2020 actuarial valuation was determined using the following actuarial assumptions and other inputs, applied to all periods included in the measurement, unless otherwise specified:

Inflation 2.50%

Salary Increases 4.00% to 9.50%

Investment Rate of Return 0.00%

Healthcare Cost Trend Rates - Initial Medicare and Non-Medicare - 8.25%

Healthcare Cost Trend Rates - Ultimate 4.25% Fiscal Year the Ultimate Rate is Reached 2037

Mortality rates were based on the RP-2014 White Collar Annuitant Mortality Table, adjusted for TRS experience. For disabled annuitants, mortality rates were based on the RP-Disabled Annuitant table. Mortality rates for pre-retirement were based on the RP-2014 White Collar Table. All tables reflect future mortality improvements using Projection Scale MP-2017.

The actuarial assumptions used in the June 30, 2020 valuation were based on the results of an actuarial experience study for the period July 1, 2014 through June 30, 2017.

*Discount Rate.* At June 30, 2020, the discount rate used to measure the total OPEB liability was a blended rate of 2.45%, which was a change from the June 30, 2019 rate of 3.13%. Since THIS is financed on a payas-you-go basis, the discount rate is based on the 20-year general obligation bond index.

## NOTE 10 - OTHER POST-EMPLOYMENT BENEFITS - (CONTINUED)

Sensitivity of the Net OPEB Liability to Changes in the Discount Rate. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a discount rate that is 1-percentage-point lower (1.45%) or 1-percentage-point higher (3.45%) than the current discount rate:

	1% Decrease	Current 1% Decrease Discount Rate 1% Increase			
Net OPEB Liability	\$ 93,716,953	\$ 77,976,660	\$ 65,506,459		

Sensitivity of the Net OPEB Liability to Changes in the Healthcare Cost Trend Rate. The following presents the net OPEB liability of the District, as well as what the District's net OPEB liability would be if it were calculated using a healthcare cost trend rate that is 1-percentage-point lower (initial rate of 7.25% decreasing to an ultimate rate of 3.25%) for Medicare and non-Medicare coverage or 1-percentage-point higher (initial rate of 9.25% decreasing to an ultimate rate of 5.25%) for Medicare and non-Medicare coverage than the current healthcare cost trend rate:

		Healthcare Cost Trend			
	1% Decrease	Rate	1% Increase		
Net OPEB Liability	\$ 62,717,020	\$ 77,976,660	\$ 98,604,916		

*OPEB Expense.* District OPEB expense, as part of the June 30, 2020 valuation, was \$2,753,106. For the year ended June 30, 2021, the District recognized on-behalf revenue and expenditures of \$3,374,067 for support provided by the state.

#### **District OPEB Plan**

Plan Description. The District administers a single-employer defined benefit Retiree Healthcare Plan plan ("the District OPEB Plan"). The plan provides health, dental and life insurance benefits for eligible retirees and their spouses through the District's group insurance plans and through the Teachers Retirement Insurance Program (TRIP) which covers both active and retired members. Benefit provisions are established through collective bargaining agreements and state that eligible retirees and their spouses receive health, dental and life insurance at at established contribution rates. The District OPEB Plan does not issue a publicly available financial report.

Contributions and Benefits Provided. Contribution requirements are established through collective bargaining agreements and may be amended only through negotiations between the board and the union.

#### **NOTE 11 - RETIREMENT SYSTEMS**

The retirement plans of the District include the Teachers' Retirement System of the State of Illinois (TRS) and the Illinois Municipal Retirement Fund (IMRF). Most funding for TRS is provided through payroll withholdings of certified employees and contributions made by the State of Illinois on-behalf of the District. IMRF is funded through property taxes and a perpetual lien of the District's corporate personal property replacement tax. Each retirement system is discussed below.

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

#### **Teachers' Retirement System**

Plan Description. The District participates in the Teachers' Retirement System of the State of Illinois (TRS). TRS is a cost-sharing multiple-employer defined benefit pension plan that was created by the Illinois legislature for the benefit of Illinois public school teachers employed outside the city of Chicago. TRS members include all active nonannuitants who are employed by a TRS-covered employer to provide services for which teacher licensure is required. The Illinois Pension Code outlines the benefit provisions of TRS, and amendments to the plan can be made only by legislative action with the Governor's approval. The TRS Board of Trustees is responsible for the System's administration.

TRS issues a publicly available financial report that can be obtained at https://www.trsil.org/financial/cafrs/fy2020; by writing to TRS at 2815 W. Washington, PO Box 19253, Springfield, IL 62794; or by calling (888) 678-3675, option 2.

Benefits Provided. TRS provides retirement, disability, and death benefits. *Tier 1* members have TRS or reciprocal system service prior to January 1, 2011. *Tier 1* members qualify for retirement benefits at age 62 with five years of service, at age 60 with 10 years, or age 55 with 20 years. The benefit is determined by the average of the four highest years of creditable earnings within the last 10 years of creditable service and the percentage of average salary to which the member is entitled. Most members retire under a formula that provides 2.2 percent of final average salary up to a maximum of 75 percent with 34 years of service.

*Tier 2* members qualify for retirement benefits at age 67 with 10 years of service, or a discounted annuity can be paid at age 62 with 10 years of service. Creditable earnings for retirement purposes are capped and the final average salary is based on the highest consecutive eight years of creditable service rather than the highest four. Disability provisions for *Tier 2* are identical to those of *Tier 1*. Death benefits are payable under a formula that is different from *Tier 1*.

Essentially all *Tier 1* retirees receive an annual 3 percent increase in the current retirement benefit beginning January 1 following the attainment of age 61 or on January 1 following the member's first anniversary in retirement, whichever is later. *Tier 2* annual increases will be the lesser of three percent of the original benefit or one-half percent of the rate of inflation beginning January 1 following attainment of age 67 or on January 1 following the member's first anniversary in retirement, whichever is later.

Public Act 100-0023, enacted in 2017, creates an optional *Tier 3* hybrid retirement plan, but it has not yet gone into effect. Public Act 100-0587, enacted in 2018, requires TRS to offer two temporary benefit buyout programs that expire on June 30, 2024. One program allows retiring Tier 1 members to receive a partial lump-sum payment in exchange for accepting a lower, delayed annual increase. The other allows inactive vested Tier 1 and 2 members to receive a partial lump-sum payment in lieu of a retirement annuity. Both programs began in 2019 and are funded by bonds issued by the state of Illinois.

*Contributions*. The State of Illinois maintains the primary responsibility for funding TRS. The Illinois Pension Code, as amended by Public Act 88-0593 and subsequent acts, provides that for years 2010 through 2045, the minimum contribution to the System for each fiscal year shall be an amount determined to be sufficient to bring the total assets of the System up to 90 percent of the total actuarial liabilities of the System by the end of fiscal year 2045.

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Contributions from active members and TRS contributing employers are also required by the Illinois Pension Code. The contribution rates are specified in the pension code. The active member contribution rate for the year ended June 30, 2020 was 9.0 percent of creditable earnings. The member contribution, which may be paid on behalf of employees by the District, is submitted to TRS by the District.

On Behalf Contributions to TRS. The State of Illinois makes employer pension contributions on behalf of the District. For the year ended June 30, 2021, State of Illinois contributions recognized by the District were based on the state's proportionate share of with the pension expense associated with the District, and the District recognized revenue and expenses of \$61,079,795 in governmental activities based on the economic resources measurement basis and revenues and expenditures in the amount of \$35,229,193 in the General Fund based on the current financial resources measurement basis.

2.2 Formula Contributions. Employers contribute 0.58 percent of total creditable earnings for the 2.2 formula change. The contribution rate is specified by statute. Contributions for the year ended June 30, 2021, were \$446,649.

Federal and Trust Fund Contributions. When TRS members are paid from federal and special trust funds administered by the District, there is a statutory requirement for the District to pay an employer pension contribution from those funds. Under Public Act 100-0340, the federal and special trust fund contribution rate is the total District normal cost beginning with the year ended June 30, 2018.

Previously, employer contributions for employees paid from federal and special trust funds were at the same rate as the state contribution rate to TRS and were much more higher.

For the year ended June 30, 2021, the District pension contribution was 10.41 percent of salaries paid from federal and special trust funds. Contributions for the year ended June 30, 2021, were \$62,953, which was equal to the District's required contribution.

Salary increases over 6 percent. The District is also required to make a one-time contribution to TRS for members granted salary increases over 6 percent if those salaries are used to calculate a retiree's final average salary. For the year ended June 30, 2021, the District paid \$693 to TRS for employer contributions due on salary increases in excess of 6 percent.

TRS Fiduciary Net Position. Detailed information about the TRS's fiduciary net position as of June 30, 2020 is available in the separately issued TRS Comprehensive Annual Financial Report.

*Net Pension Liability.* At June 30, 2021, the District has a liability for its proportionate share of the net pension liability (first amount shown below) that reflected a reduction for state pension support provided to the District. The state's support and total are for disclosure purposes only. The amount allocated to the District as its proportionate share of the net pension liability, the related state support, and the total portion of the net pension liability that was associated with the District were as follows:

District's proportionate share of the collective net pension liability

State's proportionate share of the collective net pension liability associated with the District

\$ 7,322,238 573,515,688 \$ 580,837,926

Total

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

The net pension liability was measured as of June 30, 2020, and the total pension liability used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2019, and rolled forward to June 30, 2020. The District's proportion of the net pension liability was based on the District's share of contributions to TRS for the measurement year ended June 30, 2020, relative to the projected contributions of all participating TRS employers and the state during that period. At June 30, 2020 and 2019, the District's proportion was 0.00849297 percent and 0.00922280 percent, respectively.

Summary of Significant Accounting Policies. For purposes of measuring the collective net pension liability, deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of TRS and additions to/deductions from TRS fiduciary net position have been determined on the same basis as they are reported by TRS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the June 30, 2020 actuarial valuation included (a) 7.00% investment rate of return net of pension plan investment expense, including inflation, (b) projected salary increases varies by amount of service credit, and (c) inflation of 2.50%.

*Mortality.* Mortality rates were based on the RP-2014 White Collar Table with appropriate adjustments for TRS experience. The rates are used on a fully-generational basis using projection table MP-2017. The assumptions were based on the results of an experience study dated September 18, 2018.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return by the target asset allocation percentage and by adding expected inflation. The target allocation and best estimates of arithmetic real rates of return for each major asset class that were used by the actuary are summarized in the following table:

		Long-Term
	Target	Expected Real
Asset Class	Allocation	Rate of Return
U.S. equities large cap	16.50 %	6.10 %
U.S. equities small/mid cap	2.30 %	7.20 %
International equities developed	12.20 %	7.00 %
Emerging market equities	3.00 %	9.40 %
U.S. bonds core	7.00 %	2.20 %
U.S. bonds high yield	2.50 %	4.10 %
International debt developed	3.10 %	1.50 %
Emerging international debt	3.20 %	4.50 %
Real estate	16.00 %	5.70 %

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Discount Rate. At June 30, 2020, the discount rate used to measure the total pension liability was a blended rate of 7.00 percent, which was the same as the prior valuation. The projection of cash flows used to determine the discount rate assumed that employee contributions, employer contributions, and state contributions will be made at the current statutorily-required rates.

Based on those assumptions, TRS's fiduciary net position at June 30, 2020 was projected to be available to make all projected future benefit payments of current active and inactive members and all benefit recipients. *Tier 1*'s liability is partially funded by *Tier 2* members, as the *Tier 2* member contribution is higher than the cost of *Tier 2* benefits. Due to this subsidy, contributions from future members in excess of the service cost are also included in the determination of the discount rate. All projected future payments were covered, so the long-term expected rate of return on TRS investments was applied to all periods of projected benefit payments to determine the total pension liability.

Discount Rate Sensitivity. The following presents the District's proportionate share of the net pension liability calculated using the discount rate of 7.00 percent, as well as what the District's proportionate share of the net pension liability would be if it were calculated using a discount rate that is 1-percentage-point lower (6.00 percent) or 1-percentage-point higher (8.00 percent) than the current rate:

	Current 1% Decrease Discount Rate 1% Incr			% Increase		
District's proportionate share of the collective net pension liability	\$	8,887,863	\$	7,322,238	\$	6,033,275

*Pension Expense.* District pension expense, as part of the June 30, 2020 valuation, was \$208,741. For the year ended June 30, 2021, the District recognized TRS-related pension expense of \$509,602 and on-behalf revenue and expense of \$61,079,795 for support provided by the state.

### Illinois Municipal Retirement Fund

Plan Description. The District's defined benefit pension plan for Regular employees provides retirement and disability benefits, post retirement increases, and death benefits to plan members and beneficiaries. The District's plan is managed by the Illinois Municipal Retirement Fund (IMRF), the administrator of a multi-employer pension plan. Benefit provisions are established by statute and may only be changed by the General Assembly of the State of Illinois. IMRF issues a publicly available financial report that includes financial statements and required supplementary information. The report may be obtained on-line at www.imrf.org.

All employees hired in positions that meet or exceed the prescribed annual hourly standard must be enrolled in IMRF as participating members. Public Act 96-0889 created a second tier for IMRF's Regular Plan. IMRF assigns a benefit tier to a member when he or she is enrolled in IMRF. The tier is determined by the member's first IMRF participation date. If the member first participated in IMRF before January 1, 2011, they participate in *Regular Tier 1*. If the member first participated in IMRF on or after January 1, 2011, they participate in *Regular Tier 2*.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

For *Regular Tier 1*, pension benefits vest after eight years of service. Participating members who retire at or after age 60 with 8 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any consecutive 48 months within the last 10 years of service, divided by 48. Under *Regular Tier 1*, the pension is increased by 3% of the original amount on January 1 every year after retirement. For *Regular Tier 2*, pension benefits vest after ten years of service. Participating members who retire at or after age 67 with 10 years of service are entitled to an annual retirement benefit, payable monthly for life, in an amount equal to 1-2/3% of the final rate of earnings for the first 15 years of service credit, plus 2% for each year of service credit after 15 years to a maximum of 75% of their final rate of earnings. Final rate of earnings is the highest total earnings during any 96 consecutive months within the last 10 years of service, divided by 96. Under *Regular Tier 2*, the pension is increased on January 1 every year after retirement, upon reaching age 67, by the *lesser* of 3% of the original pension amount, or 1/2 of the increase in the Consumer Price Index of the original pension amount. IMRF also provides death and disability benefits. These benefit provisions and all other requirements are established by state statute.

Plan Membership. At December 31, 2020, the measurement date, membership of the plan was as follows:

Retirees and beneficiaries	507
Inactive, non-retired members	561
Active members	327
Total	<u>1,395</u>

Contributions. As set by statute, District employees participating in IMRF are required to contribute 4.50 percent of their annual covered salary. The statute requires the District to contribute the amount necessary, in addition to member contributions, to finance the retirement coverage of its own employees. The District's actuarially determined contribution rate for calendar year 2020 was 13.04 percent of annual covered payroll. The District also contributes for disability benefits, death benefits and supplemental retirement benefits, all of which are pooled at the IMRF level. Contribution rates for disability and death benefits are set by the IMRF Board of Trustees, while the supplemental retirement benefits rate is set by statute.

Net Pension Liability/(Asset). The net pension liability/(asset) was measured as of December 31, 2020, and the total pension liability used to calculate the net pension liability/(asset) was determined by an annual actuarial valuation as of that date.

Summary of Significant Accounting Policies. For purposes of measuring the net pension liability/(asset), deferred outflows of resources and deferred inflows of resources related to pensions, and pension expense, information about the fiduciary net position of IMRF and additions to/deductions from IMRF fiduciary net position have been determined on the same basis as they are reported by IMRF. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

Actuarial Assumptions. The assumptions used to measure the total pension liability in the December 31, 2020 annual actuarial valuation included (a) 7.25% investment rate of return, (b) projected salary increases from 2.85% to 13.75%, and (c) price inflation of 2.25%. The retirement age is based on experience-based table of rates that are specific to the type of eligibility condition. The tables were last updated for the 2020 valuation pursuant to an experience study of the period 2017-2019.

### NOTE 11 - RETIREMENT SYSTEMS - (CONTINUED)

Mortality. For non-disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Retiree, Male (adjusted 106%) and Female (adjusted 105%) tables, and future mortality improvements projected using scale MP-2020 were used. For disabled retirees, the Pub-2010, Amount-Weighted, below-median income, General, Disabled Retiree, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used. For active members, the Pub-2010, Amount-Weighted, below-median income, General, Employee, Male and Female (both unadjusted) tables, and future mortality improvements projected using scale MP-2020 were used.

Long-Term Expected Real Rate of Return. The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense, and inflation) are developed for each major asset class. These ranges are combined to produce the long-term expected rate of return by weighting the expected future real rates of return to the target asset allocation percentage and adding expected inflation. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

	Target	One Year	Ten Year	
Asset Class	Allocation	Arithmetic	Geometric	
Equities	37.00 %	6.35 %	5.00 %	
International equities	18.00 %	7.65 %	6.00 %	
Fixed income	28.00 %	1.40 %	1.30 %	
Real estate	9.00 %	7.10 %	6.20 %	
Alternatives	7.00 %			
Private equity		10.35 %	6.95 %	
Hedge funds		N/A	N/A	
Commodities		3.90 %	2.85 %	
Cash equivalents	1.00 %	0.70 %	0.70 %	

Discount Rate. The discount rate used to measure the total pension liability for IMRF was 7.25%, the same rate as the prior valuation. The projection of cash flows used to determine the discount rate assumed that member contributions will be made at the current contribution rate and that District contributions will be made at rates equal to the difference between actuarially determined contribution rates and the member rate. Based on those assumptions, the fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefits payments to determine the total pension liability.

*Pension Expense.* District pension expense, as part of the December 31, 2020 valuation, was \$69,679. For the year ended June 30, 2021, the District recognized pension expense of \$208,741.

#### NOTE 12 - COMMITMENTS

As of June 30, 2021, the District is committed to approximately \$10,700,000 in expenditures in the upcoming year for various construction projects. These expenditures will be paid through the available fund balances and building bonds to be issued in FY 2021.

NOTES TO BASIC FINANCIAL STATEMENTS AS OF AND FOR THE YEAR ENDED JUNE 30, 2021

#### NOTE 13 - STATE AND FEDERAL AID CONTINGENCIES

The District has received federal and state grants for specific purposes that are subject to review and audit by the grantor agencies. Such audits could lead to requests for reimbursements to the grantor agency for expenditures disallowed under the terms of the grants. Management believes such disallowance, if any, would be immaterial.

#### NOTE 14 - RESTATEMENT

Net position and beginning fund balances have been restated due to the implementation of GASB Statement No. 84 - *Fiduciary Activities*. The restatement is necessary to present student activity amounts within the governmental activities and governmental funds

# NOTE 15 - EFFECT OF NEW ACCOUNTING STANDARDS ON CURRENT-PERIOD FINANCIAL STATEMENTS

The Governmental Accounting Standards Board (GASB) has approved GASB Statement No. 87, Leases, GASB Statement No. 89, Accounting for Interest Cost Incurred Before the End of a Construction Period, GASB Statement No. 91, Conduit Debt Obligations, GASB Statement No. 93, Replacement of Interbank Offered Rates, GASB Statement No. 94, Public-Private and Public-Public Partnerships and Availability Payment Arrangements, GASB Statement No. 96, Subscription-Based Information Technology Arrangements, and GASB Statement No. 97, Certain Component Unit Criteria, and Accounting and Financial Reporting for Internal Revenue Code Section 457 Deferred Compensation Plans.

The statements listed above through Statement No. 93 had their required effective dates postponed by one year with the issuance of Statement No. 95, Postponement of Effective Dates of Certain Authoritative Guidance, with the exception of Statement No. 87, which was postponed by one and a half years.

When they become effective, application of these standards may restate portions of these financial statements.
