May 2025

Friendly Neighbors of Glenbard East,

Over the next few years, there will be many changes to the building and outdoor facilities of Glenbard East High School. We are extremely excited about the slated projects as they represent significant additions and renovations, and we want to ensure that we are providing regular updates.

Phase one of our renovations, which includes replacement of the building's east curtain wall, renovation of the library and several bathrooms, replacement of the stadium field turf and track, as well as some HVAC and electrical work, started on Monday, May 27th, and will last throughout the summer months. As a result, there will be lots of construction equipment, fencing, and traffic around the campus during that time.

During this summer's work, Door 1, our main entrance off of Wilson Ave, will not be accessible. Instead, access to the building will be restricted to Door 20, which is located in the south parking lot off of Main St.

We appreciate and value the relationship we have with our families and neighbors, and want to be proactive in our communication when it comes to these construction projects. To that end, we are planning to host an in person Community Facilities Construction Update on Tuesday, July 8, from 5:30pm to 6:30pm, in Rider Hall.

You can find detailed, up-to-date information about all of Glenbard's facility plans on the Glenbard District 87 Facilities Master Plan website.

Thanks in advance for your patience and understanding. I look forward to seeing you on July 8, 2025.

Sincerely,

Antoine Anderson, Principal
