Facility Planning

2003-2013

Target:
**Fiscal
Responsibility**

2013-2023

Target:
**Aging and Deferred
Facility Needs**

**WARM
SAFE
DRY**

2023 & BEYOND

Target:
**Enhanced Instructional
Priorities**

**WARM
SAFE
DRY+**

Facility Planning

Glenbard South's Biggest Areas of Need:

- Safer and secure **vestibule** connected to relocated main office
- **Classroom and science lab** improvements
- Introduce **daylight** – severe lack of windows
- Improvements to **fine arts** spaces
- **Learning commons** space to support diverse student learning experiences
- **Student support services** relocation to improve access to resources
- Cafeteria expansion and upgrades to gain **versatile, multi-purpose** space and relieve congestion

Continual Progress

Glenbard South High School is progressing through multiple construction bid releases, each targeting improvements focused on modernization across the campus.

Summer 2025 work included the installation of 24 new windows in classrooms on the West face of the Tower, roofing replacement to accommodate solar panels, and new bleachers in the Main Gym.

Current work (reaching competition) includes new tennis courts, a new multipurpose practice grass field, installation of solar panels and upgrades for Baseball and Softball fields (dugouts & press boxes)

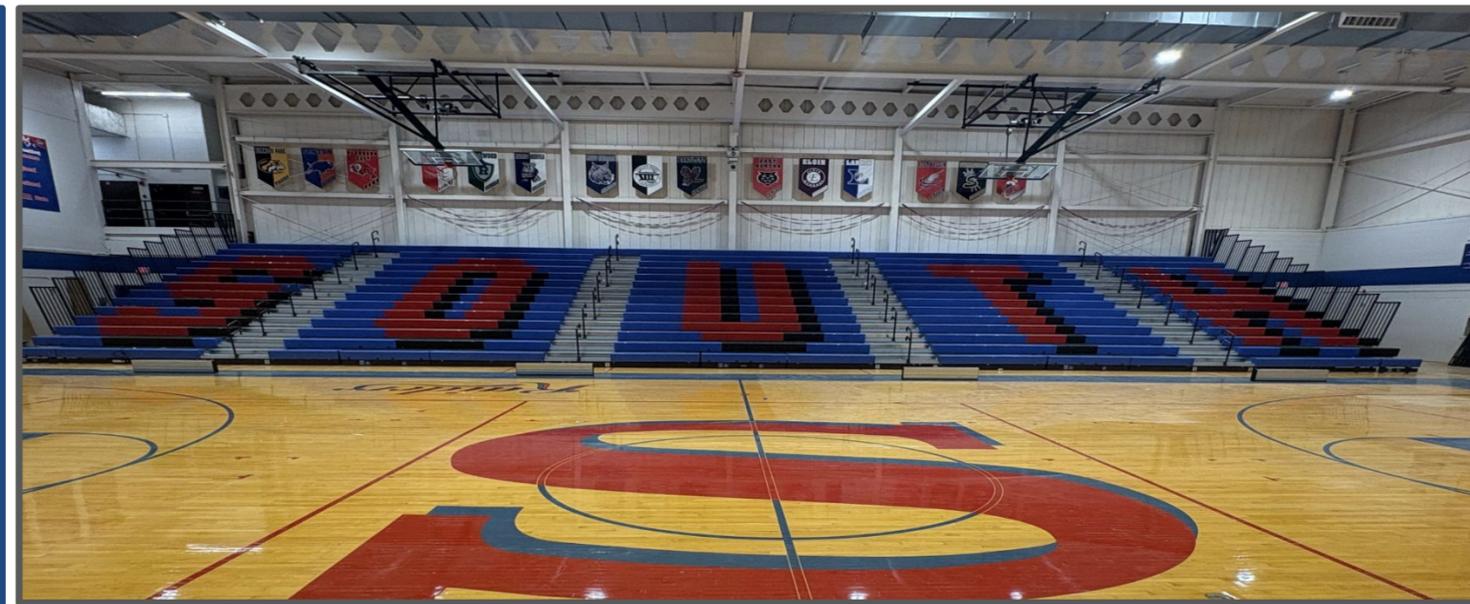

Summer 2026 work will include substantial renovations to academic and athletic facilities.

In the **summer of 2027**, we anticipate projects that include a new, secure vestibule addition and many upgrades to student common areas.

Continual Progress

The **first phase** of work, completed in Summer 2025, included the installation of 24 new windows in classrooms on the West face of the Tower, roofing replacement to accommodate solar panels, and new bleachers in the Main Gym.

Continual Progress

The **second phase** is currently reaching completion and includes new tennis courts, a new multipurpose practice grass field, installation of solar panels and upgrades for Baseball and Softball fields (dugouts & press boxes)

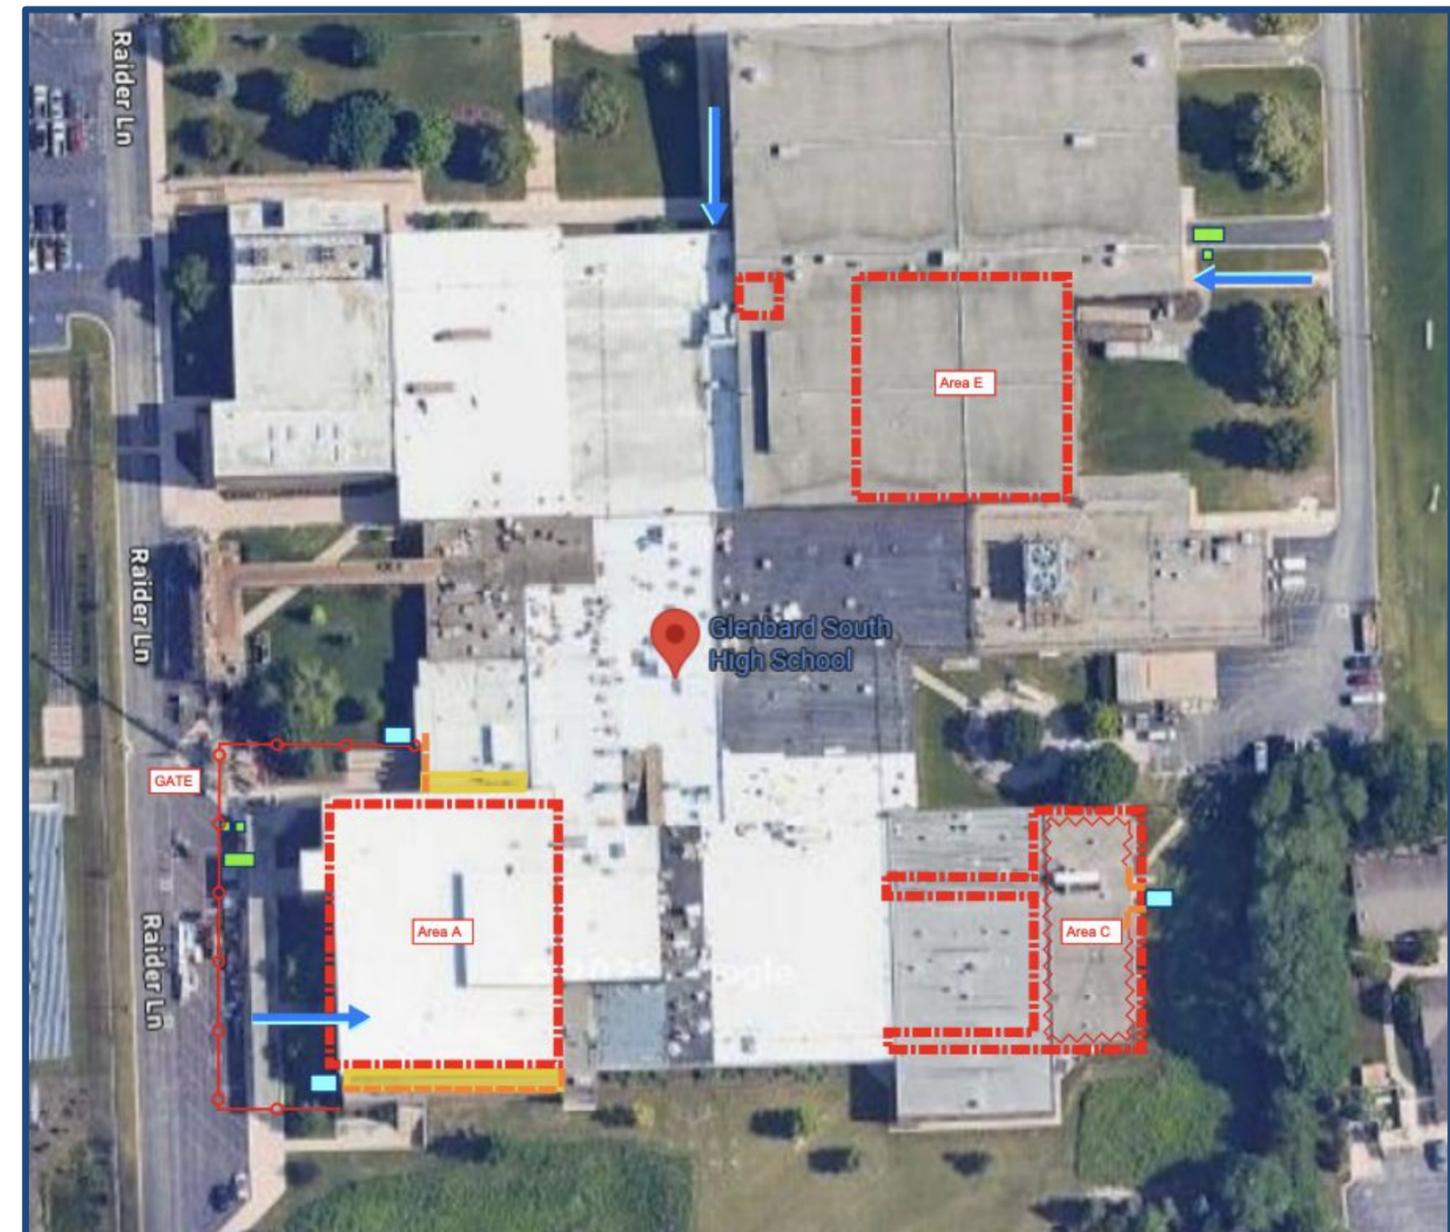

Continual Progress

The **third phase** of work is scheduled for Summer 2026 and will include renovations to academic and athletic facilities:

- **Tower, Level 1**
 - Classroom Updates
 - Culinary Lab Renovation
 - Child Development Classroom Renovation
 - Hallway Renovations
- **Tower, Levels 2 and 3**
 - Windows in classrooms on North & South Face (where available)
- **Science Area**
 - 3 Classroom Renovations (East classrooms)
 - Hallway Renovation
- **Gym Floor Replacement**
- **New Lift Installation**

Continual Progress

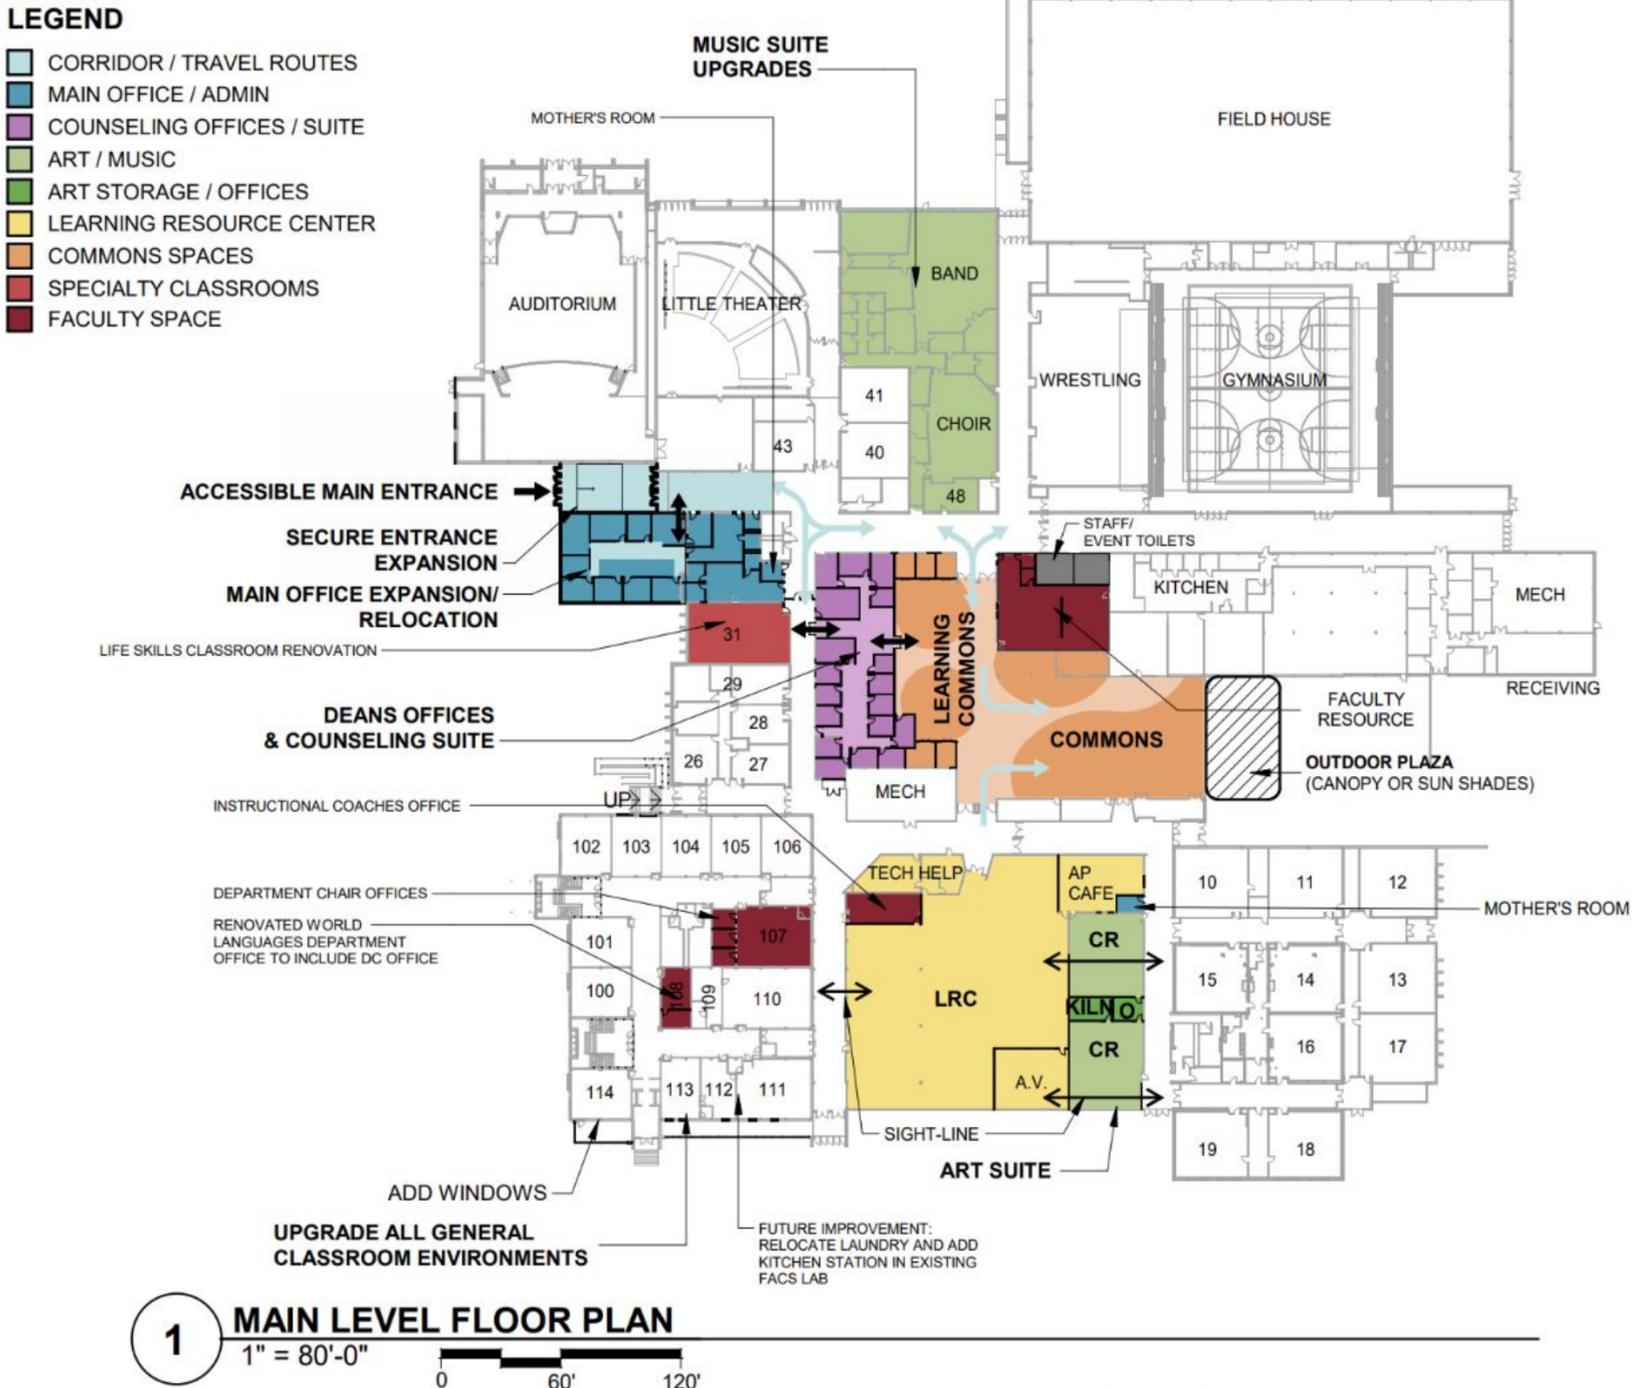

The **third phase** of work is scheduled for Summer 2026 and will include renovations to academic and athletic facilities:

Continual Progress

In the **summer of 2027**, we anticipate projects that include a new, secure vestibule addition and many upgrades to student common areas.
